ACCESSORY

S.2460
SIGNAL CONVERTER EBOX DMX

EBOX-DMX wireless box is a wireless communication protocol and converts the RF signal into DMX. It is compatible with all DMX luminaire products on the market. This wireless technology application, has removed the complex cabling procedure and expensive technical commissioning fee, to make it become more easier for new or retrofit installations. The IP66 device is compatible with the RBGW 4 Zone TOUCH-PANEL (S.2451/S.2456) and/or with the REMOTE CONTROL (S.2450/S.2455) and/or APP control through the GATEWAY WIFI -106 box (S.2465).
In case of wireless connection and as any other WIFI product, should not be placed in a metal enclosure or next to large metal structure. Metal will effectively block all radio signals which are crucial to the operation of the product.
