GATEWAY WIFI-106 BOX DMX

The Gateway is a WiFi lighting control system, consisted of APP and WiFi remote controller to change the saved scenes (max. can call max. 4 scenes). Controls various types of LED lighting products. By installing the related App on our Android (4.0 or above) or iOS (IOS 8.0) mobile devices which support WiFi connection. With DIM, CT adjustment, RGB and RGBW changing 4 in 1 operation, plus 12 controller control function. You can connect directly your mobile device to the Gateway with router or without. The IP66 WIFI-106 gateway box must not be placed in a metal enclosure or next to large metal structure. Metal will effectively block all radio signals which are crucial to the operation of the product. **The GATEWAY, in order to function correctly, MUST be installed in combination with the TOUCH-PANEL (S.2451/S.2456). Moreover, it is compatible with the EBOX CONVERTER accessory (S.2460) ONLY when used in combination with the TOUCH-PANEL (S.2451/S.2456).**
