ACCESSORY

S.9099
Master Interface

Combined with a common 60W 24V On-Off power supply, it controls Flower ZOOM 60 products with DALI single control up to a maximum power of 60W total for each Highlighter rod. Only individualcontrolled Flower ZOOM 60 products should be used in this configuration. A maximum of n.5 Flower ZOOM 60 Individual controll can be installed on one Highlighter, regardless of its length. These can be controlled independently of each other and of the Highlighter lighting rod thanks to the DALI protocol. Each Highlighter lighting rod, used for the installation of the single control products, needs n.1 master interface accessory (S.9099) for DALI control.
