# Prestigious materials

**Bell is an outdoor range of products enriched with refined inserts in solid satin bronze.**

The elegance of the Bell family is dictated from a harmonious merge of colors and materials. The product differentiate for the shape of the aluminum body enriched by bronze inserts characterizing the whole family in a decisive way.

The reflector that embraces the inner part of the lamp warmth the light beam and the tapered cone slims the silhouette.

These decorative elements in solid bronze are treated with a transparent protective layer that maintains the color and ensures quality and durability.

# Applique

## Two sizes for the wall.

Bell and Minibell wall lamps enhance the classic facades with a warm and welcoming light. These versions are characterized by a curved arm, which orients the light beam downwards. Thanks to the position of the lamp and the reeded microglass, the light effect is homogeneous and not glaring.

# Ceiling

## **Rigid support and cable suspension.**

Bell ceiling is available with rigid support or with adjustable cable. Due to its stability to the wind, the Bell Ceiling with rigid support is particularly suitable for outdoor exposed environments. In the cable suspension version Bell is expressed in a very elegant silhouette particularly suitable for porches and lodge.

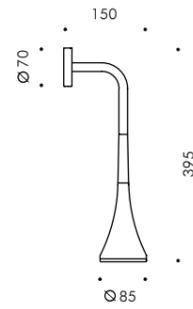

# Bollard

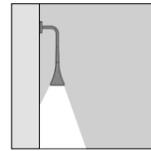

**Tilted to 20° for  
an embracing light.**

Bell is an elegant garden lamp, thin and refined, inspired by the shape of the bell. This beautiful bollard discreetly stands out in the landscape to illuminate walkways, bushes and decorative elements of private gardens. The light wraps the stake from the stem to the ground, resting evenly all around.
