New Products' Preview

Cool, the LED essence for wall or bollard.

COOL is one of the latest LED novelties from SIMES, engineered to maximize the LED power, whilst minimizing the size and energy consumption. Available in four different versions, as wall mounted and as bollard, the COOL family introduces a new way to light up outdoor spaces. Confirming the SIMES high quality standards, these fittings are made using aluminum with low content of copper and highly robust glass. COOL is a simple void volume diffusing light in two directions from a very thin LED circuit right below its protective glass.

Cool 290mm

230V

A new wall mounted version is now available. COOL 290mm keeps the proportions of the smaller version improving performance and creating new application possibilities. COOL 290mm is a minimal and ultra-compact element ideal for creating striking light effects and illuminate wide surfaces through indirect light.

Mini-Cool 220mm 230V

All the versions presented at EUROLUCE, have been improved. They are now available in 230V version without remote box.

24V versions on request.

IP rating
IP54

Insulation
CLASS I

Mechanical resistance
IK 06

Material characteristics
Die-cast EN AB-47100 aluminium housing (copper free) with high corrosion resistance.
Extruded EN AW-6060 aluminium structure (bollard version) with high corrosion resistance.
Toughened glass diffuser.
Stainless steel screws.
Luminaire hard wires with H07RN-F cable.
Fast connector IP68 included.
Silicone gaskets.

Luminaires supplied with LED circuit.

This luminaire contains built-in LED modules with energy class:

The LED modules cannot be changed in the luminaire (Regulation UE 874/2012).

Double powdered paint in 3 step process:

- _ surface treatment containing ceramic nano particles (Bonderite);
- _ epoxy primer paint;
- _ polyester powder paint with high resistance against UV rays and harsh weather conditions.

Colour:

- White (code 01)
- Aluminium grey (code 14)
